

DUAL POWER STAND FAN

SFDC-30218RC

INNOVATIVE QUIET DUAL POWERED ENERGY EFFICIENT REMOTE CONTROL

POWER BANK PORTABILITY

NSA^{UK}'s Dual Power Stand Fan effortlessly combines new technologies with stylish design. It's uniquely designed dual power technology means this high powered, energy efficient and ultra-quiet fan can work both via the mains or a USB power bank providing portability with minimal compromise on power.

The multi-positioning fan head allows for maximum air distribution and its vertical to horizontal tilt ensures an all-round cooling effect. Combined with 32 speeds, 3 modes (Breeze / Sleep / ECO), 15hr times and an oscillation range from 30 - 120 degrees means this fan will suit all needs and cooling demands.

Quiet Mark accredited due to its ultra quiet operation from the energy efficient DC motor which in turn, saves around 70% on running costs compared to a similar fan with a traditional AC motor.

Lightweight, portable and easy to assemble NSA^{UK}'s cleverly designed Dual Power Stand Fan really will help to create the perfect environment, anywhere.

DUAL POWER VERSATILITY
