7 Mega Quiet Fans That Won't Keep You Up at Night

Tried and tested by Quiet Mark, these fans will help you beat the heat.

BY LISA WALDEN 22/07/2021

Looking for a quiet fan to keep cool this summer? With temperatures set to soar around the UK, now is the ideal time to snap up a low-noise cooling fan. Whether you're on the hunt for quiet fans for your bedroom or tower fans, Quiet Mark has uncovered the best ones that won't keep you up at night.

There's a lot to consider when choosing a fan, including size, style, speed, and noise levels. If you're planning on using your fan during the day, noise levels might not matter as much, however, if you sleep with your fan on then consider fans with silent settings.

Wondering why you should buy a quiet fan? 'During the day, the reduced noise level enables you to focus on many tasks, such as WFH Zoom calls, or playing with the children during the summer break,' say the team at Quiet Mark, the independent global certification programme launched by the UK Noise Abatement Society charitable foundation. 'At night, a quiet fan will not only make the room more comfortable for sleeping but also the motor sound won't keep you awake, desperately reaching for the pillow to place over your head!'

On that note, take a look at these Quiet Mark-approved fans to add to your shopping list...

1. DESK FAN – BEST QUIET FAN

Rechargeable White Desk Fan - 5 Inches

Dimplex £29.99

[SHOP NOW](#)

Beat the heat with this small rechargeable and quiet fan, which is just £29.99. One of the quietest cooling fans on the market according to Quiet Mark, it can run for up to 15 hours (at the lowest speed setting) on a single charge. Perfect for cooling down at your desk.

2. TOWER FAN – BEST QUIET FAN

HY254E QuietSet Tower Fan

Honeywell Amazon £52.24

[SHOP NOW](#)

Not only does this quiet fan have a sleek design, but it also has five cooling settings (including whisper quiet and turbo) to ensure you get the cooling power you need.

3. OSCILLATING FAN – BEST QUIET FAN

Dual Power Stand Fan

NSAUK £119.99

[SHOP NOW](#)

Quiet Mark accredited due to its ultra-quiet operation, this white Dual Power Stand Fan ensures an all-round cooling effect. Perfect for a hot day, it has 32 speeds, three modes, and an oscillation range from 30 – 120 degrees.
